Prediction interpretation

This client is predicted not to subscribe. You may want to adjust outreach strategies or prioritize higher-probability leads.

▼ About this dashboard

- This Streamlit app uses the same trained bank marketing model as the FastAPI service. Enter client attributes on the left, submit the form, and review the model output instantly.
- Model artifact: bank_marketing_model.joblib
 - Prediction target: client subscribes to term deposit
 - Data source: UCI Bank Marketing dataset
